

### Bay Point Homes LLC. Green Options

With the increased cost in heat and energy we are always striving to bring energy efficient ideas to the table during the planning stages of a new home. We want your home to be as energy efficient as possible and are offering the following upgrades to increase your homes energy efficiency.

- Domestic solar hot water
- Radiant floor heating by warm board
- Increased insulation R-values.
  - We take walls from an R-10 to R-26.44!
  - Attics are taken from R-38 to R-50 and greater!
- Programmable thermostats
- Window upgrades
- And more!

Avis America and Pro-Fab use Energy Star Rating materials in their homes. Call or stop by and let us show you how we can build your dream home and save you money on your heating and energy costs!
